

INDUSTRIAL PRODUCTS LONG STICKS

PIERCE

WORK HARD AND CARRY A BIG STICK.

Pierce long sticks go to great lengths to improve your productivity without the need to invest in a complete long reach or material handling front. They're built to extend the reach of your excavator by up to 50% – allowing you to stretch your capabilities, easily and economically.

Our long sticks are designed to precision fit your excavator's main boom stick cylinder, bucket cylinder, linkage, pins, and factory main boom plumbing.

It's what sets Pierce attachments apart from pin-on stick extensions or stick modifications which are suited for light duty, incidental work.

FEATURES:

- Bare stick.
- Bushings in bores.
- Stick plumbing.
- Finish paint.

OPTIONAL:

- Bucket cylinder and linkage.
- Work tools.
