**PIERCE**

# PILE DRIVER

Say goodbye to cable cranes...along with the transportation expense, set-up, and teardown time. Introducing Pierce pile driving fronts.

Our 2-piece, 3-piece, and 3-piece telescopic units are engineered to tuck to an allowable transport height, and on a single truck. Furthermore, the 3-piece variations allow the operator to drive piles without having to track the machine.

Pierce pile driving fronts are designed to reduce transportation and set-up costs, save valuable time, and increase your productivity.

## A NEW PILE DRIVER YOU CAN DIG.

## PIERCE

In-house design team: check. Comprehensive manufacturing capabilities: check. Product testing and certification, technical support, and convenient distribution centers throughout North America: check, check, and check. With so much to offer, we're ideally positioned to provide complete solutions for all of your business needs. From ordinary to extraordinary.

As a leading designer and manufacturer of hydraulic excavator attachments and work tools, Pierce has built a solid reputation for providing reliable, high performance products that are designed to keep pace with changing industry conditions – and one step ahead of emerging technologies.

Our position as a direct supplier for many of the world's leading equipment providers has enabled us to become experts in client collaboration, managing specific application parameters, and maintaining the highest quality standards for a variety of markets. Even if your needs call for a customized solution that doesn't currently exist, you can count us to make it happen – and make it happen right. Imagine that.
